

REACH

“REACH is the European Community Regulation on chemicals and their safe use (EC1907/2006). It deals with the **R**egistration, **E**valuation, **A**uthorization and **R**estriction of **C**hemical substances.”

November 21,2011

Lin Engineering is a supplier of products that do not “intentionally release” chemicals, and therefore we are not bound by the REACH regulation regarding chemical registration.

Lin Engineering produces Articles as identified by the legislation and makes every attempt to comply with Article 33 reporting requirements. We have gone beyond the requirements and canvassed our supplier base for the presence of SVHCs, and as of today’s date, no SVHCs have been reported as present in any of the materials incorporated into our products. If that situation should change, we will promptly notify any affected customers in accordance with the requirements of the REACH legislation.

Regards,

Ryan Lin
Executive VP
Lin Engineering, Inc.
